Introduction

Welcome to my mobile app portfolio. Here, you'll find detailed descriptions, key features, and images of the apps I have worked on. This professional showcase highlights some of the innovative solutions and user-friendly designs I've created.

App Overview

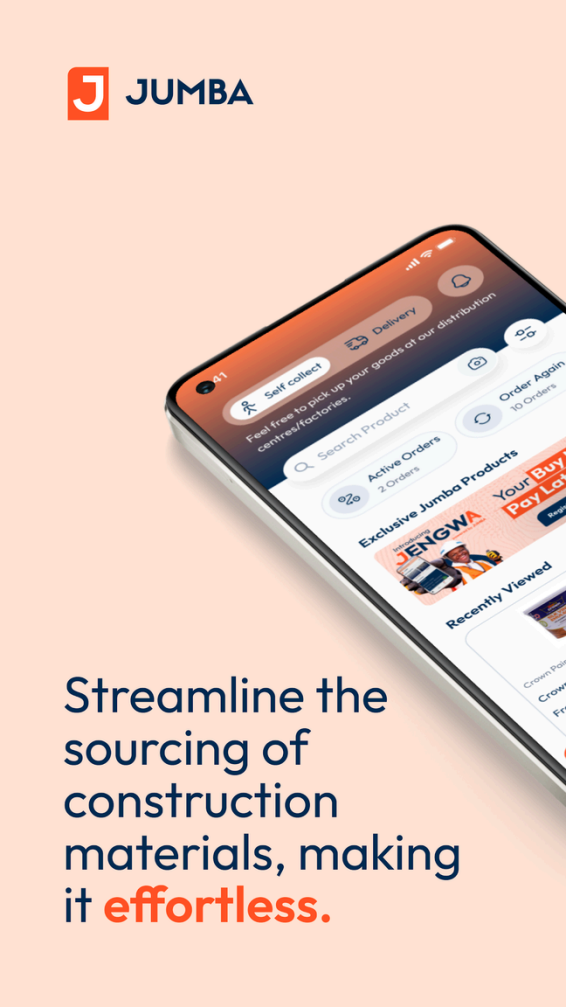

Jumba

https://www.jumba.com

Description: Jumba is a B2B retail-tech solution designed as a trusted digital partner for hardware stores. The platform leverages technology to streamline the construction supply chain, enabling store owners to scale their operations with confidence through direct manufacturer access and integrated financial services.

Key Features:

- **Direct Manufacturer Ordering:** Procurement of materials like cement at competitive, factory-direct prices.
- **Instant LPO Generation:** Automated 24/7 access to Local Purchase Orders for immediate business continuity.
- **Jengwa (Buy Now, Pay Later):** Integrated credit facilities providing inventory financing to manage cash flow.
- **Business Management Suite:** Digital tools designed to optimize hardware store growth and operational efficiency.

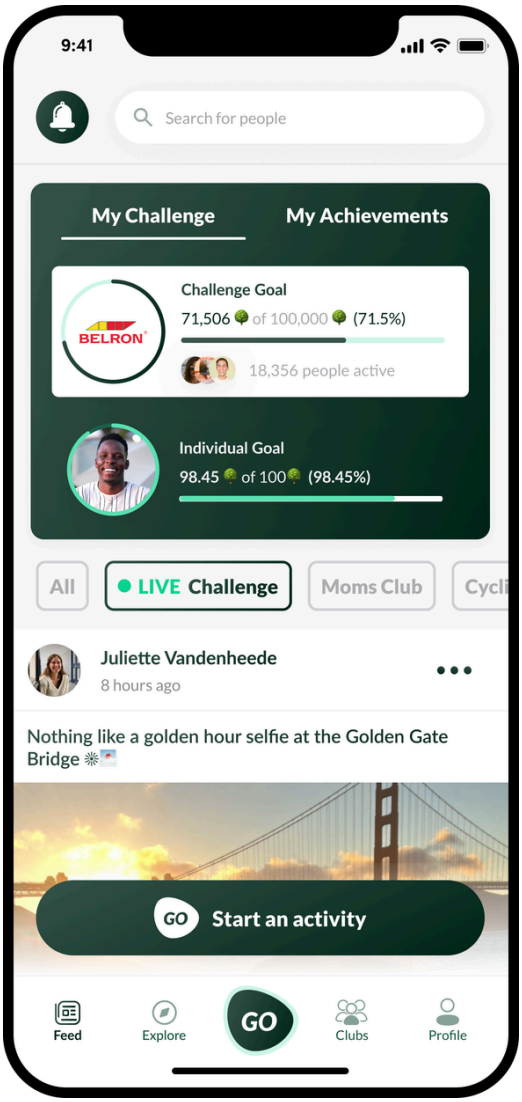

atlasGO

https://atlasgo.org

Description: atlasGO (teroGO) is a global employee engagement and wellbeing platform that fosters healthy work environments through purpose-driven corporate challenges. The application connects physical activity, mental health, and social impact, allowing organizations to mobilize their teams around ESG (Environmental, Social, and Governance) and CSR goals through virtual community building.

Key Features:

- **Gamified Challenges:** Virtual events driving physical and mental health.
- **Community Feed:** A social hub for sharing progress and milestones.
- **Impact Tracking:** Real-time data on charitable and environmental goals.
- **Wearable Integration:** Seamless syncing with health apps and devices.

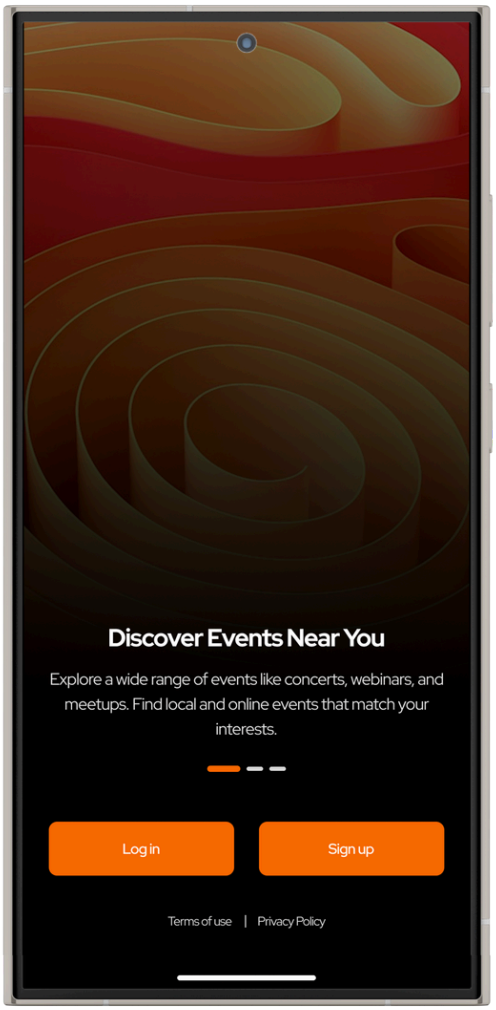

evently **(coming soon)**

https://www.evently-app.xyz

Description: A comprehensive event management platform for organizations to create, coordinate, and track events. It streamlines the entire lifecycle from initial planning and team collaboration to post-event performance analysis.

Key Features:

- **Centralized Management:** Unified dashboard for creating and tracking multiple events.
- **Team Collaboration:** Seamless tools for inviting and managing staff and team members.
- **Registration Handling:** Automated attendee sign-ups and registration management.
- **Performance Analytics:** Data-driven insights to measure event success and engagement.

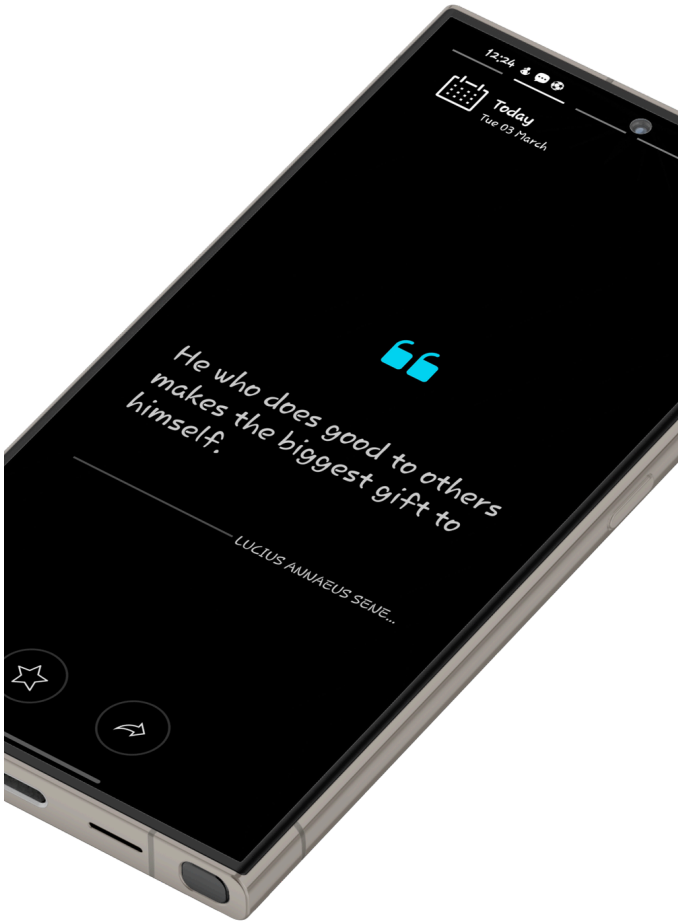

evently **(hobby mobile app project)**

Description: A daily inspiration platform providing curated quotes from Leo Tolstoy's *The Calendar of Wisdom*. It offers users a minimalist space for reflection and spiritual growth based on timeless philosophical insights.

Key Features:

- **Daily Wisdom Feed:** Automated delivery of philosophical quotes for each day of the year.
- **Curated Content:** Sourced directly from a collection of world-renowned wisdom and literature.
- **Minimalist UI:** Clean, distraction-free interface focused on the reading experience.
- **Progress Tracking:** Tools to bookmark and revisit influential insights over time.

Conclusion

These apps demonstrate my commitment to developing powerful and intuitive mobile solutions. Whether enhancing productivity or health, each app reflects my attention to detail and dedication to creating a seamless user experience. Feel free to reach out for further information or collaboration opportunities.
